

Realizing the Distinctive University

VISION AND VALUES, STRATEGY AND CULTURE

Mark William Roche

A must read for academic administrators, faculty members interested in the inner workings of the university, and graduate students and scholars of higher education.

Advance Praise . . .

"[Roche's] book is far from the jeremiad that has become common during recent decades; it is an optimistic paean to American higher education's accomplishments and opportunities. Echoing the arguments he made in such books as *Why Choose the Liberal Arts?*, he says that offering intellectual challenge amid a fostered sense of community, rather than mere jobs preparation, reaps such rewards as lifelong alumni loyalty." —*The Chronicle of Higher Education*

"I can't think of another book about higher education so astute and persuasive about the importance of an institutional vision, and so clear-sighted about practices that help administrators as they struggle to attain it. Roche comprehensively discusses vision, hiring, advancement, curriculum, and perhaps most importantly, the development of internal processes that support collaboration, efficiency, and achievement." —**Richard Finkelstein, dean of Arts and Sciences, University of Mary Washington**

"Mark Roche in his eleven years as dean of the College of Arts and Letters at the University of Notre Dame fulfilled the responsibilities of the office with perception and style, contributing thereby to the significant advancement of the university in research, scholarship, education of students, and reputation. To the benefit of all deans—and other stakeholders in higher education—Roche has written a revealing account of the ins and outs, ups and downs of decanal life. Administrators at other aspiring universities will benefit immensely from following Roche's decisions, admitted mistakes, revisions, and strategies." —**George Dennis O'Brien, president emeritus, University of Rochester**
